**Request to Amend the Wild Horse Wind Power Project Site Certification Agreement to  
Construct and Operate a Demonstration Solar Facility**

On March 2, 2007, Puget Sound Energy (PSE) requested that the Energy Facility Site Evaluation Council (EFSEC or Council) approve an amendment to the Wild Horse Wind Power Project (WHWPP) Site Certification Agreement (SCA). If approved, the amendment would allow the installation of a 500 kilowatt solar demonstration facility. The bulk of the facility (4.5 acres) would be located within existing disturbed area known as Quarry #1 and the remainder (0.5 acres) adjacent to the Operations/Visitors Center. The proposal would consist of photovoltaic panels fitted to a metal framework, anchored to concrete foundations. Total height would not exceed 10 feet and will offset electrical needs of the Operations/Visitors Center.

**March 27, 2007: EFSEC Informational Hearing**

As indicated above, on March 27, 2006, starting at 4:00 p.m., EFSEC will conduct an Informational Hearing at the Home Arts Center of the Kittitas County Fairgrounds in Ellensburg, Washington to hear public comments on the request to amend the SCA from citizens, stakeholders, and interested persons or organizations; and

We invite all interested persons to attend and participate in this meeting.

### **Where can I get information about the amendment?**

The following documents about the request for amendment are available from EFSEC:

- The March 2, 2007 request from PSE;
- A Determination of Non Significance issued by EFSEC according to WAC 197-11-340 on March 16, 2007;
