

Resolution No. 132

WNP-2 Revised Monitoring Program

WHEREAS Condition V.B.1 of the WNP-2 certification agreement provides that "...reasonable modifications shall be made, with concurrence of the Council, when these are necessary to achieve the purposes of the programs", and

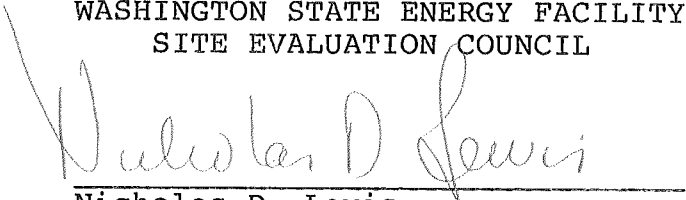

WHEREAS the Washington Public Power Supply System requested approval on December 30, 1977, for a revised environmental monitoring program based on accumulated data and considerations of consistency with the NRC requirements, and

WHEREAS the revised monitoring program has been reviewed and found to be reasonable, necessary and satisfactory for the purpose of environmental monitoring,

NOW THEREFORE BE IT RESOLVED That Revision 1 (dated January 9, 1978) of Attachment 1 of the site certification agreement for WNP-2 is herewith approved as the adopted environmental monitoring program; PROVIDED, Where references to meat and/or poultry appear on pages 2, 6, 12, 14 & 18 a superscript shall be placed directing attention to the following footnote: "Meat and/or poultry need be sampled only when vicinal soil and vegetation samplings indicate greater than background levels of radioactivity."

Adopted this 23rd day of January 1978.
