Resolution No. 208

WHEREAS, Article VI.D. of the WNP-3/5 Site Certification Agreement states that the:

"Supply System shall submit for the Council's approval within five (5) years of execution of this agreement, a plan for decommissioning and disposal of the project;" and

WHEREAS, By letter dated October 22, 1981, the Washington Public Power Supply System did request a one-month extension of the submittal date; and

WHEREAS, The Council did consider and approve a 30-day time extension for the submission of the Decommissioning Plan on October 22, 1981; and

WHEREAS, The Supply System by letter of November 18, 1981, submitted the Decommissioning Plan to the Council for review; and

WHEREAS, The Council has studied the plan for decommissioning and disposing of the WNP-3/5 plants and is satisfied that the proposed plan will assure that sufficient financing is available to place the plants in protective storage during and/or following the end of the plants normal operating period;

NOW, THEREFORE, BE IT RESOLVED, That the Energy Facility Site Evaluation Council hereby approves the concept of the approach outlined as the planned decommissioning process for WNP-3/5, subject to:

- 1. Submittal of a detailed financial plan six (6) months prior to fuel loading; and
- 2. Submittal of a detailed plan of decommissioning five (5) years prior to shutdown at the end of the normal operating period, or as soon as practicable in the event premature decommissioning is necessary.

Dated this 26th day of July, 1982.

WASHINGTON STATE ENERGY FACILITY
SITE EVALUATION COUNCIL
