

RESOLUTION NO. 246

Amendment No. 1

WHEREAS, The Energy Facility Site Evaluation Council (Council) has adopted rules directing applicants and certificate holders to formulate plans for site restoration, effective March 11, 1987; and

WHEREAS, The Washington Public Power Supply System (Supply System) submitted a draft plan for the site restoration of Washington Nuclear Project No. 4 (WNP-4), Hanford Reservation, and Washington Nuclear Project No. 5 (WNP-5), Satsop, and petitioned the Council to postpone detailed consideration of the plan; and

WHEREAS, The partially completed projects WNP-4 and WNP-5 were terminated in 1982; and

WHEREAS, There are compelling reasons to delay consideration of the detailed site restoration plans: 1) the outcome of Multi-District Litigation (MDL) No. 551 is uncertain; 2) there are active salvage programs underway at the projects; and 3) a final decision as to resumption of construction or termination of the twinned projects WNP-1 and WNP-3 is yet to be made; and

WHEREAS, The Supply System is responsible for restoration of the entire common sites which are licensed by the Council; and

WHEREAS, The Supply System submitted a Report on WNP-4 and WNP-5 Site Activities, dated November 27, 1990; and

WHEREAS, Major demolition or other substantial site restoration activities on the sites should be conducted safely, lawfully and subject to Council approval;

NOW, THEREFORE, BE IT RESOLVED, That the Council hereby approves the petition to postpone consideration of site restoration plans for WNP-4 and WNP-5, provided that the Supply System shall report to the Council, describing relevant matters and their effect upon site restoration plans, annually in October and on the occurrence of any of the following circumstances:

1. Prior to commencing any demolition activity or activity which would alter or remove any structure or physical feature of the site or which could cause risk of damage to the environment or to health and safety;
2. Change in the legal status of possible funding for site restoration;
3. Change in the status of either WNP-1 or WNP-3; or
4. Any other good cause.

Dated this 10th day of October 1988.
Amended this 14th day of January 1991.

RESOLUTION NO. 246

WHEREAS, The Energy Facility Site Evaluation Council (Council) has adopted rules directing applicants and certificate holders to formulate plans for site restoration, effective March 11, 1987; and

WHEREAS, The Washington Public Power Supply System (Supply System) submitted a draft plan for the site restoration of Washington Nuclear Project No. 4 (WNP-4), Hanford Reservation, and Washington Nuclear Project No. 5 (WNP-5), Satsop, and petitioned the Council to postpone detailed consideration of the plan; and

WHEREAS, The partially completed projects WNP-4 and WNP-5 were terminated in 1982; and

WHEREAS, There are compelling reasons to delay consideration of the detailed site restoration plans: 1) the outcome of Multi-District Litigation (MDL) No. 551 is uncertain; 2) there are active salvage programs underway at the projects; and 3) a final decision as to resumption of construction or termination of the twinned projects WNP-1 and WNP-3 is yet to be made; and

WHEREAS, The Supply System is responsible for restoration of the entire common sites which are licensed by the Council;

NOW, THEREFORE, BE IT RESOLVED, That the Council hereby conditionally approves the petition to postpone consideration of the site restoration plans for WNP-4 and WNP-5 with the understanding that the matter shall be reexamined for any of the following circumstances:

1. Expiration of one year's time;
2. Change in the availability of funding for site restoration;
3. Change in the status of either WNP-1 or WNP-3; or
4. Any other good cause.

Dated this 10th day of October 1988.
