James O. Luce
Chair, Energy Facility Site Evaluation Council
925 Plum Street SE, Building 4
Olympia, WA 98504-3172

Dear Chair Luce:

Subject: **PACIFIC MOUNTAIN ENERGY CENTER
GREENHOUSE GAS REDUCTION PLAN**

Ref: 1: 1) Pacific Mountain Energy Center Requested Start of Adjudicatory Process,
July 2, 2007
2) Revised Draft Pacific Mountain Energy Center Schedule, July 2, 2007

In compliance with ESSB6001 and RCW 80.70, we have prepared the attached Greenhouse Gas (GHG) Reduction Plan for the Pacific Mountain Energy Center (PMEC).

We believe that the plan represents a significant step in working with the State of Washington to advance the understanding and applications of carbon sequestration technology and science.

It is important for regional utilities to have financial and operational certainty in new thermal generation development. Energy Northwest and the PMEC utility participants are committed to reduce GHGs and seek approval of this plan in the EFSEC adjudicative proceedings which we requested in our July 2, 2007 letter.

If you have any questions, please contact me at 509.377.4761 or PMEC Project Manager Ted Beatty at 509.372.5531.

Respectfully yours,

T.W. Krueger, Manager
Generation Resource Development
