

FACT SHEET

Tesoro Savage Vancouver Energy Distribution Terminal Facility Final Environmental Impact Statement

Proposal's Sponsor:

Tesoro Savage Petroleum Terminal LLC, a joint venture of Tesoro Refining & Marketing Company LLC, a subsidiary of Tesoro Corporation, and Savage Companies.

Lead Agency and Responsible Official:

Washington State Energy Facility Site Evaluation Council (EFSEC);
Stephen Posner, EFSEC Manager,
P.O. Box 43172, 1300 S Evergreen
Park Dr. SW, Olympia, WA
98504-3172.

Abstract:

The proposed Facility would be a crude oil terminal capable of receiving an average of 360,000 barrels of crude oil per day by train, storing it onsite, and loading it onto marine vessels for delivery to refineries primarily located on the US West Coast. Crude oil would be delivered to the proposed Facility by railroad within "unit trains" composed of up to 120 sole-purpose crude oil tank cars. Existing railroad tracks (likely those belonging to Burlington Northern Santa Fe, or BNSF) would be used to transport the crude oil from its source to the Port of Vancouver (Port). Following approval and construction, the proposed Facility could receive crude oil from any source with rail access to the Port; however, according to information provided by the Applicant, the most likely sources would be northern mid-continent crude oil produced in North Dakota and Montana, and in Canada. An average of four unit trains per day would arrive at the proposed Facility. Tentative commencement of operation is 2018.

A comprehensive review of system alternatives, site alternatives, and onsite alternatives did not identify any reasonable alternatives to the Proposed Action described above. Therefore only the Proposed Action and the No Action Alternative were carried forward for detailed analysis in this Final Environmental Impact Statement (EIS).

Project Location:

The proposed Facility would be located on a 47.4-acre site located at Terminals 4 and 5 at the Port of Vancouver in the City of Vancouver, Washington.

Required Permits, Approvals, and Licenses:

EFSEC's Site Certification Agreement (SCA) preempts otherwise applicable state and local regulatory permits pursuant to Revised Code of Washington (RCW) 80.50.110 and RCW 80.50.120. For informational purposes, Table 1-1 in the Final EIS provides a list of these preempted state and local permitting requirements. Federal permits and requirements are identified in Table 1-2.

Authors and Principal Contributors to the Final EIS:

The Final EIS was prepared by EFSEC's independent consultant, Cardno, Inc., with assistance from EnerSource Engineering, AECOM, and Golder Associates Inc. Reports supporting the Final EIS were completed by Environmental Research Consulting, MainLine Management, Inc., Herbert Engineering Corp., RPS ASA, EnerSource Engineering, AECOM, and Maul Foster & Alongi. Additional information on the authors and principal contributors is presented in Chapter 7 of the Final EIS.

Date of Final EIS Issuance:

November 2017

Availability of the EIS:

The Final EIS as well as the Draft EIS are available at no cost on the EFSEC website at: <http://www.efsec.wa.gov/Tesoro-Savage.shtml>. To obtain a printed copy or CD of the Final EIS (for the cost of production), please contact Sonia Bumpus at sbumpus@utc.wa.gov or (360) 664-1363. The document is also available as a reference at local libraries and at:

Date of Final Lead Agency Action:

After its evaluation is complete, EFSEC will submit a recommendation to the governor. If EFSEC recommends approval of the Facility, EFSEC will submit a draft SCA for the governor’s signature. Within 60 days of receipt of EFSEC’s recommendation, the governor may approve the Facility, reject the Facility, or direct EFSEC to reconsider the SCA. If an Application for Site Certification is denied, a proposal cannot be constructed and operated. The date of the governor’s ultimate decision is not currently known.

Location of Background Information:

Documents regarding the SCA, scoping comments, public comments, land use, and adjudication can be found at <http://www.efsec.wa.gov/Tesoro-Savage.shtml>. The website also contains applications for related permits, schedules, transcripts of meetings, and relevant correspondence from the Applicant, EFSEC, and other interested stakeholders on various aspects of the Application for Site Certification review and EIS process and is regularly updated with such information.
