Notice of Proposed Rule Making

In accordance with RCW 34.05.353, the Energy Facility Site Evaluation Council (EFSEC) has filed a notice of Expedited Rule Making (CR-105) with the state's Code Reviser's Office for proposed rule making to all but two chapters of Title 463 of the Washington Administrative Code (WAC) related to EFSEC.

The purpose of the rule revisions is to bring all EFSEC rules into alignment with its statute as amended in E2SHB 1812 in 2022 and with other statutes, such as the Environmental Health Law Reorganization (SHB 2246 of 2020).

All proposed changes either: 1) only affect internal agency operations not subject to violation by a person; 2) adopt or incorporate Washington state statutes or rules of other state agencies; 3) correct typographical errors, make address or name changes, or clarify language without changing its effect; or, 4) are content explicitly and specifically dictated by statute.
