Subject: C.E.A.S.E. CITIZENS EDUCATED ABOUT SOLAR ENERGY CARRIGER COMMENT FOR THE RECORD

Has attachment? False

External Email

We the members of C.E.A.S.E. oppose the granting of the extension for the Carriger solar project proposed in OUR county. The project is detrimental to the environment, wildlife, wildlife habitat, Yakama tribal culture, the people and more. Carriger solar and Cypress Creek Renewable corporation are takers not givers. They plan to destroy OUR county and when they have made all the planned profits leave without cleaning up their mess. The 2-acres of BESS lithium-ion batteries at the Carriger solar are a danger to the people as proven by the Moss Landing BESS fire/explosion and release of deadly toxic fumes. The latest fire suppression technology at Moss Landing could not prevent or control the fire and that failure endangered the people. The same dangerous event will happen at the Carriger BESS facility. Cypress Creek Renewable representatives and their families living in Santa Monica, California will not be in danger and that is why they don't care what happens in OUR county. Why don't you EFSEC Washingtonians protect the people in Klickitat County and deny the extension. Stand up for the people not the heartless and ruthless Cypress Creek Renewable corporation. Greg Wagner C.E.A.S.E.
