RE: Withdrawal of Expedited Processing request (Ch. 463-43 WAC); Horse Heaven Wind Farm project

Dear Ms. Bumpus:

This letter serves as notice that Scout Clean Energy ("Scout") hereby withdraws its request for expedited processing of the Horse Heaven Wind Farm project as originally requested in the Application for Site Certification submitted on February 8, 2021. In withdrawing the request for expedited review, Scout acknowledges that an Environmental Impact Statement ("EIS") will likely be prepared to address potential environmental impacts related to the project. We trust that the SEPA Checklist submitted with the Application for Site Certification will facilitate the upcoming SEPA review process.

Sincerely,

A handwritten signature in blue ink that reads "Darin Huseby". The signature is fluid and cursive, with a large loop at the end.

Darin Huseby
Director – Western U.S. Development
