Q1. Name	Katherine Stevens
Q2. Email	dacrowgirl@yahoo.com
Q3. Are you part of an Agency or Organization?	No
Q4. Share any comment	<p>I am opposed to large scale solar farms and I oppose your project here in Klickitat county. There is considerable evidence of soil erosion, wildlife migration interruptions and taking up acres of land for an eyesore of banks of solar panels is not what we need or want as residents of Klickitat County. In my opinion we should be moving away from large utility farms and focus on smaller local solutions for areas that provide energy for the immediate area. Cover a parking lot in a city with panels that provides energy to that area for instance. There needs to be planning for used or broken panels that include recycling or innovative materials that breakdown or aren't sitting in landfills for decades to come. Thoughtful innovation is necessary for all of our future.</p>
