Q1. **Name** Trisha Clark

Q2. **Email** trisha_clark@hotmail.com

Q3. **Are you part of an Agency or Organization?** No

Q4. **Share any comment**

Land owners have the right to develop their property as they see fit. The sun, like any resource, should be harvested, collected and refined for use. The process to refine any resource is not without challenges and finding solutions is part of human innovation. Diverse energy resources will be needed as the future unfolds. If these lands are not developed as the land owner is proposing, the land will likely be developed alternatively, which would be for residential 5 acre lots. Over 200 new homes and the associated cars on the road will have a much larger impact in the long run than what the property owner is proposing with this project. And I go back to my original statement, that owners of land in Klickitat County should have the freedom to do what they want with their land if it is within the allowances of the zone it is situated in and the Comprehensive Plan. As a resident of Klickitat County my first concern is the preservation of property owner rights. Thank you
