Subject: C.E.A.S.E. CITIZENS EDUCATED ABOUT SOLAR ENERGY
Date: Friday, June 27, 2025 5:05:29 PM

External Email

Hi, EFSEC states, this project will comply with all local zoning which is not true. This project requires a Klickitat County issued CUP Conditional Use Permit by the BOA Board of Adjustment and that CUP has never been issued. Until such time this project cannot be sent to or approved by the Governor. EFSEC is ignoring this requirement that they set in place in order to rush this ill-conceived and unwanted project to the Governor for his approval. The Governor will base his decision on EFSEC's lies and the people of Klickitat County suffer from his poor decision. This just another example of the illegal underhanded tactics of EFSEC. They are doing the same on the Horse Heaven Hill wind/solar project in Benton County. EFSEC is holding private meetings with Scout Clean Energy in violation of RCW 42.30 the Open Public Meetings Act. Kurt Beckett EFSEC chair and former energy lobbyist for Scout Clean Energy is heading up these private meetings apparently to ensure Scout Clean Energy gets what they want. The Governor appointed Kurt Beckett so it unlikely that he will be removed as EFSEC chair. The people of eastern Washington are merely energy collateral damage, and our futures don't matter. Greg Wagner C.E.A.S.E.
