Hi, solar corporation conmen want you to believe their industrial solar facility will not harm the farmland. They also want you to believe that when their solar facility has reached the end of its profitable life, they will properly decommission the facility and restore the farmland to its original condition. We'd need to be really gullible to believe these lies. Read the reports from the soil scientists which tells the truth about the negative impacts by industrial solar facilities to farmland. Farmland that feeds Americans. This is the future for farmland destroyed by Cypress Creek Renewables Carriger solar project in Klickitat County, Washington. This project has been expedited by abusive EFSEC against the will of the people. None of Cypress Creek Renewable conmen live near this project. They want it built here far from their homes in Sanat Monica, California. Greg Wagner C.E.A.S.E.
