Subject: C.E.A.S.E. EFSEC upcoming action item: Policy #16-01 available for comment

Hi, C.E.A.S.E. comment for the record. Allowing Sonia Bumpus to make project decisions outside of the public view is in violation of RCW 42.30 and without council approval, which makes the process less transparent, and less accountable to the public. This would allow behind closed door deals to occur and is exactly why RCW 42.30 was created. Allowing Sonia Bumpus to approve changes without public oversight participation is designed to speed up the permitting process and benefit the energy corporations. Governor Ferguson and various state agencies are dissatisfied with the lengthy EFSEC permitting process and want this change to streamline the permitting process. This is unacceptable because it only benefits the energy corporations and is a detriment to the people. This is just another dirty EFSEC tactic to circumvent the will of the people and peoples' opposition to the state's push for useless wind and solar projects only in eastern Washington. Allowing Sonia Bumpus to have the final determination on projects approval violates the peoples' Due Process. Every useless wind and solar project you permit increase your electric cost and reduces the amount of electricity available. You are weakening our state and are despicable bunch. I hope one day you are treated as bad as you are treating the people in eastern Washington. Sonia Bumpus should not be promoted. Greg Wagner C.E.A.S.E.

RCW 42.30.010

Legislative declaration.

The legislature finds and declares that all public commissions, boards, councils, committees, subcommittees, departments, divisions, offices, and all other public agencies of this state and subdivisions thereof exist to aid in the conduct of the people's business. It is the

intent of this chapter that their actions be taken openly and that their deliberations be conducted openly.

The people of this state do not yield their sovereignty to the agencies which serve them. The people, in delegating authority, do not give their public servants the right to decide what is good for the people to know and what is not good for them to know. The people insist on remaining informed and informing the people's public servants of their views so that they may retain control over the instruments they have created. For these reasons, even when not required by law, public agencies are encouraged to incorporate and accept public comment during their decision-making process.
