When it comes to building more structure and facilities for the energy grid and public utilities, I am in support of projects so long as they are non hazardous and dangerous to communities nearby and that they do not encroach or take eminent domain over property rights, tribal lands, farmlands, agriculture and natural resource lands and forestry. I ask that this council be precise in evaluating area that does affect disturbance of life and community as well as a hazard to those living in the designated area. Please be careful in your evaluations. Thank you.
