98504-

Dear Chair Beckett,

In regard to the BESS approval in Sedro Woolley, Washington, I am writing to ask you to decline approval. Hansen Creek is a beautiful, natural area with salmon that spawn there. The site is close to downtown Sedro Woolley. This is a terrible location for a lithium battery facility. Lithium battery facilities have caused 22 fires in the U.S. since 2019. Please say NO! to this idea.

Respectfully,
Judy Farnas
