As some one who lives in view of the Ferruginous Hawk's and enjoys biking the proposed turbine project area I would strongly suggest holding to the original recommendations of the 2 miles buffer zone. We all know even the 2 mile buffer will drive much of the wildlife out of the area and greatly affect the Ferruginous Hawks. Please don't allow this wasteful project to destroy the wildlife and our way of life. This project will be devastating to the Tri-Cities.
