Q1. Name	Gary Finn
Q2. Email address	garylfinn7@gmail.com
Q3. Are you part of an Agency or Organization?	No
Q4. Share any comment	I live near the edge of the Horse Heaven hills. I do not want these giant eyesore wind turbines in view of my home. The Tri-city area is growing like crazy, and this proposed area should be saved for future residential growth. The turbines will be too close to our urban growth areas. These turbines will also be detrimental to local habitat and wildlife. I have also read that there is new technology creating wind turbines that have no blades, are much smaller, and more efficient. So, why would we want to build turbines that are outdated and cause more problems. Sounds like a waste of taxpayers' money to me. Thanks for allowing input!
Q5. Upload your document (optional)	not answered
Q6. Upload a picture (optional)	not answered
Q7. Did you also share a video?	No
Q8. What is the title of your video?	not answered
