Q1. Name	Pam Minelli
----------	-------------

Q2. Email address	pam_minelli@hotmail.com
-------------------	-------------------------

Q3. Are you part of an Agency or Organization?	Yes (please specify) This is a personal comment; I am a member of Tri-Cities CARES
--	---

Q4. Share any comment

I respectfully request that EFSEC Council postpone approval of EFSEC Resolution No. 357 and later reopen another public comment opportunity once specific location information of ferruginous hawk nests and turbines, solar and other project components subject to removal or relocation is available to the public. Concern: Currently no maps or actual location of Ferruginous Hawk nests and Horse Heaven turbines, solar, and project components within 2 miles of these nests has been made public; therefore it is impossible to make an educated comment on Resolution No. 357. Rationale: This public comment opportunity is appreciated but totally meaningless without being given the above mentioned information. How does one comment on this resolution without knowing the location of all 44 Ferruginous Hawk nests and the turbines within two miles of said nests? What's the specific location of the four nests PTAG recommends protecting with a two mile project free buffer and the one nest EFSEC declines to protect? This comment opportunity is like being asked to vote without being given the list of candidates. An impossible task. Solution: I respectfully request that EFSEC postpone consideration of Resolution No. 357 and instead offer a new public comment opportunity after releasing the specific locations of REMAINING turbines, solar and other project components once the .06 and 2 mile nest buffers are determined. Publicly reporting "what's left of the HH Project" negates the need to divulge confidential information while giving factual information needed to submit meaningful comments. Respectfully submitted, Pam Minelli Benton County Resident
