I strongly oppose the Horse Heaven project. The area has a long history and important role in the production of food and this land should not be removed from production. We are members of a partnership currently have 2,560 acres under contract with Scout and are very hopeful that the entire project will not be developed. The negative visual impact, disruption to wildlife, negative impact on Yakama Tribal sacred grounds, loss of valuable farm land along the extremely poor return on investment are sound reasons the project should be stopped. With other sources of energy including hydro, petroleum, clean coal and nuclear we do not need to sacrifice value farmland or destroy property owners enjoyment of their homes. Please consider stopping this entire project. Thank you
