EFSEC, this notice <https://efsec.wa.gov/hearings-and-meetings/2025/carriger-solar-revised-sca-and-draft-resolution-no-360-comment-period> posted on your website is in direct conflict with your October 15th notice. The posted notice fails to inform the people there will be an oral comment period. Your October 15th notice only informs people on how to comment orally. It does not inform the people that they can submit written comments. Was this confusion intentional. Both notices have different deadlines. Do you not know what you are doing? Will you correct your mistakes? Your October 15th notice has the oral comment beginning at 9am exactly when many concerned citizens are at work and this prevents their participation. Apparently, that was your plan. Additional comments will not change your positive recommendation to Ferguson. When Carriger submitted their application, you knew you would make a positive recommendation as you had prejudged the project in favor of it being permitted. In doing so you violated state law RCW 42.36. EFSEC has NEVER told the governor to deny a solar project and never will. EFSEC members must do what the governor wants, or you will be jobless. I hope one day you are treated as badly as you are treating us. Greg Wagner C.E.A.S.E.
