Ms. Snarski, will you EFSEC people read the comments prior to the October 21,2025 meeting or wait until after you make your bias decision. Will the Carriger solar comments be made available to the people prior to the October 1,2025, 9am meeting or will you hide them from the people. This meeting is a mere formality so EFSEC can pretend the peoples' concerns matter. EFSEC knew when Carriger solar submitted their project that EFSEC would make a positive recommendation to the governor regardless of the peoples' opposition. The people of eastern Washington are fed up with EFSEC abuse. If Carriger solar were to be sited next to your home EFSEC would not recommend it to the governor. Greg Wagner C.E.A.S.E.
