Subject: C.E.A.S.E. CITIZENS EDUCATED ABOUT SOLAR ENERGY

Has attachment? False

External Email

Five firefighters responding to a Tesla lithium-ion battery fire sent to the hospital. Months later still suffering from their injuries. Five injured from a small fire and the release of deadly fumes. Carriger solar has plans for 2-acres of dangerous lithium-ion batteries. Is rural 7 firefighters trained and prepared hopefully they are because EFSEC doesn't care. EFSEC plans to permit the Carriger BESS. They aren't worried about the dangers living hundreds of miles away. EFSEC required an artificial water source at the Wautoma solar facility for helicopter dipping but refuses to require the same at Carriger solar. Joann Snarski require the artificial water source at the Carriger solar facility. The people of Klickitat County to EFSEC are expendable. Just renewable collateral damage to EFSEC Joann Snarski and renewable lobbyist Kurt Beckett. EFSEC you are a heartless bunch. Greg Wagner C.E.A.S.E
