Q1. **Name** Karen Z. Richardson

Q2. **Email address** Zimbaz2910@gmail.com

Q3. **Are you part of an Agency or Organization?** No

Q4. **Share any comment**

This has been a LONG journey we've been on. There are many reasons to stop this project in its tracks. We've learned about property damages by construction work, property values that drop drastically, wind farms that become junkyards after 8 years, destruction of wildlife habitat, the extinction of pygmy rabbits, ferruginous Hawks and numerous other wildlife that lives in the Horse Heaven Hills. A family of Eagles were spotted at the new Wheathead Brewery.(They have photos) This project uses precious water sources that farmers rely on and a new expansion of homes for growth is happening now! They've tried to tell us that our utility bills will drop but reality is, we will see increases between 10 to 22% on our bills while NOT receiving any of the energy! This was a pet project of Jay Inslee's and he's since moved in to the state of Idaho. Our President just announced on Jan. 9th that he Will Not be Approving Any Wind Turbine Permits. Period! Can we please stop Now with any other proceedings that move this project foreword?
