Q3. Are you part of an Agency or Organization?	No
Q4. Share any comment	<p>I'm a resident of South Kennewick. I have been following this project since it first became public. For everyone who is for it their is at least (5) against it. First none of the energy they will produce goes to us. We receive no compensation for them. They are one big eye sore. They create noise, kill animals and endanger people who fly both public and private. The state is supposedly big on clean energy yet ignore the fact of how much energy is used to build, install and maintain them. Plus the president dis an order to stop them but has been ignored. The bottom line please don't do this.</p>
