Q1. **Name** Linda Thompsen

---

Q2. **Email address** lindathompsen@gmail.com

---

Q3. **Are you part of an Agency or Organization?** No

---

Q4. **Share any comment**

I am a member of the Audubon organization and I have been following this project for at least two years. As a bird lover and also a person dedicated to alternative energy, it is difficult to please all parties involved in this disagreement. I am not a trained scientist but believe in listening to the science. I know there are ways to mitigate and prevent harm to birds. I would ask that the committee do their best to prevent as many bird fatalities as possible while also retaining as many towers as possible. I support maximizing energy that we can obtain from the wind and sun. Having traveled through the area, I note that the geography is expansive and should allow for "views" in spite of a group of wind turbines.
