- Wind and solar energy is nothing short of a boondoggle. It is unreliable, expensive and inefficient. I have lived in the Horse Heaven Hills most of my life, born and raised. The effects on wildlife and the ecosystem can't be measured. The picture I have attached is not what I wanted, but it shows a Bald Eagle off of Badger Canyon Road and Terrell Road in the Horsed Heavens. I could not upload my video of around 6 or 8 Eagles circling in the sky. Please leave our pristine environment alone. Thank you.
