Subject: Cascade transmission line
Date: Monday, November 17, 2025 9:17:06 AM

External Email

Hi, this transmission line is being proposed to deliver wind/solar generated energy from eastern Oregon/Washington to the Portland urban area. This is more environmental harm and cost to the people to support useless wind/solar. This project relies on federal subsidies (borrowed money from Communist China) and your tax dollars. This another waste of money with minimal benefit to the people. This project is another renewable energy scam. Forget this transmission line and use clean Small Modular Nuclear Reactors. Point of use power is the most cost effective. That is why data centers/AI are moving to nuclear as they know wind/solar cannot meet their energy demand now or in the future. EFSEC, have you done a Cost Benefit Analysis to determine if this project is worth our tax dollars. I doubt it. Stop wasting the people tax dollars. C.E.A.S.E. opposes this project. Do NOT permit this project. C.E.A.S.E. Comment for the record. Greg Wagner CITIZENS EDUCATED ABOUT SOALR ENERGY C.E.A.S.E.
