To Chair Kathleen Drew
Washington Energy Facility Site Evaluation Council
621 Woodland Square Loop SE
Olympia, WA 98504-3172

Date: 12/22/22

Dear Chair Drew,

HOHI bn, LLC, a subsidiary of BNC DEVCO, LLC, which is a joint venture between BrightNight, LLC and Cordelio Power (Applicant), is pleased to submit this streamlined solar Application for Site Certification (ASC) for the Hop Hill Solar and Storage Project (Project) to the Washington Energy Facility Site Evaluation Council (EFSEC). The proposed Project is an up to 500-megawatt (MW) solar photovoltaic generation facility coupled with an up to 500-MW battery energy storage system, as well as related interconnection and ancillary support infrastructure, located in unincorporated Benton County, Washington. This streamlined solar ASC is prepared in compliance with applicable rules and standards from the Revised Code of Washington and Washington Administrative Code.

The Project was developed to achieve four main goals which include delivering low-cost renewable energy, utilizing existing electrical infrastructure wisely to reduce customer energy costs, minimizing natural resource impacts while maximizing community benefits, and maintaining the productive nature of land in conjunction with development.

We look forward to working with you during the review process. If you have any questions, or require further information, please do not hesitate to contact us at lindsey@brightnightpower.com and chris@brightnightpower.com.

Sincerely,

Lindsey Hesch
Director, Permitting - BrightNight

Chris Wissel-Tyson
Vice President, Development - BrightNight
