Dear M. Bampus

ENERGY FACILITY SITE
EVALUATION COUNCIL

I am very considered about the proposed solar panel farm (installation) on Badger Mountain. Not only will it be unsightly, but it will destroy good farmland but also it will destroy the prairie chicken's feeding & breeding ground.

Many migrating birds feed on the wheat stubble, too.

It's a concerned ^{homeowner} ~~homeowner~~ in East Wenatchee. ^{governor} ~~governor~~
Please speak to the ~~governor~~
about this problem

Sincerely

Carol Hansen
